Bruce and Jane,
Attached please find a draft agenda for the upcoming Illinois EPA and EPA CAFO training.

Please add topics that you think would be beneficial for Illinois EPA staff and/or topics that you would like to USEPA discuss.

I have a call tomorrow to further refine the topics for discussion on day 2 regarding NMPs. The overall discussion will focus on the regulatory requirements and what should be incorporated into a NPDES permit.

Let me know if it would be helpful to Illinois EPA inspections to have USEPA enforcement and compliance staff discuss inspection protocols and procedures with respect to NMP assessments during an inspection (draft last topic on day 2).

Time schedules are proposed. We can edit as you think appropriate based on any topics you add.

Thanks,
julianne
